Environmental Policy Statement

Grommets Ltd takes its responsibilities for minimising its impact on the environment seriously. We are committed towards achieving sustainability. We will endeavour to achieve this by:

Communicating with all staff the environmental issues we are facing so the need for achieving sustainability is understood;

Identifying ways every staff member can help in achieving the goal, through discussion and education;

Monitoring our consumption of resources and maintaining our site and systems to maximise efficient use of resources and minimise wastage;

Allocating resources for environmental audits so opportunities to reduce, remove, re-use and recycle are not missed;

Asking questions of our Suppliers regarding their environmental policies and considering their responses in our approval process;

Minimising the journeys generated by staff and customers;

Joanne Boorsma
Managing Director

ES1 – 190810/1
